

Tire Cover Size Chart

Use the diagram to the right to understand how the tire measurements should be taken. To find the best fit, measure the diameter of your tire and the width of the tread. Then, compare your measurements with the measurements in the sizing chart below.

For accurate sizing, read the tire size directly from the tire - do NOT rely on the vehicle type, since tire sizes may vary.

TIRE SIZE CHART

COVER SIZE	TIRE SIZES	TIRE DIAMETER RANGE	VEHICLES USING SIZES LISTED
A	245/70R19.5	34" x 8"	CLASS "A" MOTORHOME
